

PROFILE

Graham Hill Consulting provides consulting and training for SME businesses in the disciplines of quality, environment, and health & safety management.

Specialized in rapid ISO management system implementation, we are recognized by clients and leading registrars as always delivering on-time and on-budget with a 100% first time registration success rate.

Our proprietary 'Lean 6ixTM' improvement methodology blends the process approach of six sigma and the tools of lean manufacturing for rapid and sustainable process improvement.

Whether you need registration to one of the many ISO standards (ISO9001, ISO14001, ISO45001, ISO27001) or are simply looking to lay a foundation on which to build a culture of continuous improvement, our highly experienced consultants can deliver a sustainable return on your investment.

Explore how we can help take your business to the next level.

WILDCAT DOCUMENT CONTROL FOR MICROSOFT SHAREPOINT

Office 365 out-of-the-box, does not provide distinct document revisions required by ISO9001 and other similar standards for document control. The WildCat Document Control workflow system for Microsoft SharePoint takes Office 365's simple file system and versioning to a whole new level. WildCat workflows provide full **revision** control as well as review, approval and auditing workflows.

FEATURES AND BENEFITS

Clean, intuitive, visual interface
